The Czech Republic is a land-locked country in Central Europe, and is a great starting point for visiting other European destinations. From its capital, Prague, you can get to Berlin, Germany, in 4 hours by train. It takes two hours to fly to London, UK, one hour to Paris, France, and about four hours to reach Vienna, Austria, by bus or by car.

# About **PRAGUE**

Prague is the capital and largest city of the Czech Republic. It is the fourteenth-largest city in the European Union. It is also the historical capital of Bohemia. Situated in the north-west of the country on the Vltava River, the city is home to about 1.3 million people, while its larger urban zone is estimated to have a population of nearly 2 million. The city has a temperate oceanic climate, with warm summers and chilly winters.

## **PRAGUE BY PUBLIC TRANSPORT**

Public transport is inexpensive, comfortable and quick. The Prague public transport infrastructure consists of three metro lines, trams, buses, suburban trains, the funicular to Petřín Hill and six ferries crossing the Vltava River. There is an integrated ticket system for all services. An Opencard travel pass is a lot cheaper than buying individual tickets if you travel even once a day by public transport. You can buy a transport pass for one month, three months or the whole year. To get a student discount for the pass, you will need a student ID.
