# The Bridge Advantage

As a leader in the education field, you can trust BridgePathways to be your guide, your advocate and your partner throughout this life-changing experience.

## Why BridgePathways?

### Conditional Admission

Degree-seeking students may apply for conditional admission at both the undergraduate and graduate levels.

### No TOEFL Required

After successful completion of the BridgePathways Academic English Program, our university partners will grant our graduates TOEFL/IELTS waivers.

### Scholarships

BridgePathways university partners offer competitive scholarships for international students.

### On-campus

With the exception of our Denver City Center location, each BridgePathways center is located on a U.S. university campus. Students can quickly immerse themselves in campus life.

# Academic English Program

The BridgePathways Academic English Program is a comprehensive, in-depth course designed to help you succeed in the U.S. university classroom.

## BridgePathways Proficiency Levels

BridgePathways uses the Common European Framework of Reference (CEFR) when determining English proficiency levels.

BridgePathways	CEFR Level	IELTS	TOEFL iBT
Level 0	A1 - A1+	0 - 4.0	0 - 31
Level 1	A1+ - A2	5.0	32 - 43
Level 2	A2 - A2+	5.0	44 - 56
Level 3	A2+ - B1	5.5	57 - 62
Level 4	B1 - B1+	5.5	63 - 68
Level 5	B1+ - C1+	6.0+	69+

*Equivalences are approximate and for reference only.*

## Typical Schedule

Class sessions are delivered from 8:15 am to 2:15 pm, Monday through Thursday. On Fridays, class is from 9:00 am to 12:00pm. Summer sessions are more intensive.

8:15 - 10:30	Academic Speaking and Listening
10:30 - 12:00	Academic Writing
12:45 - 2:15	Academic Reading

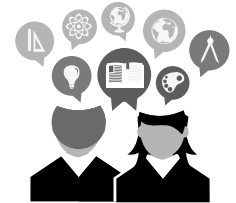

**1) ACADEMIC READINESS**

As a student in our BridgePathways Academic English program, you'll acquire the necessary English language skills to succeed in an academic environment. Our curriculum is designed to help you develop your English proficiency in the four communicative skills—reading, writing, speaking, and listening—while strengthening your study skills and strategies.

**2) TEACHING METHODOLOGY**

You'll learn quickly from the communicative and student-centered approach in all of our classes. You'll be expected to actively participate in activities, discussions, and projects. We encourage our students to constantly practice English while undertaking various academic tasks.

**3) SOCIAL & CULTURAL IMMERSION**

As a BridgePathways student, you'll participate in essential social and cultural immersion experiences to help you become comfortable with living and actively participating in U.S. campus and community environments.

**4) THEME-BASED CURRICULUM**

You'll study a different theme each week. Themes are related to common areas of undergraduate study and will unify all of your classes. This thematic approach allows you to develop both linguistic skills and content knowledge.

**5) ENGLISH ONLY**

To maximize your learning experience, we have an English-only policy both in and out of class. We ask that students from the same language background try their best to communicate only in English.

**6) AUTHENTIC MATERIALS**

You'll work with a curriculum that includes a combination of materials from National Geographic™ and other sources written for native English speakers. By using such materials, you'll be able to develop an understanding of authentic oral and written communication.

**7) CRITICAL THINKING AND ANALYSIS**

In addition to helping you achieve your linguistic goals, we will also help you to develop critical thinking and analysis skills. These important skills are an integral part of our curriculum.

**8) PRACTICAL TASKS**

You'll prepare specifically for the work you'll be doing in college with the tasks we assign. You'll be participating in discussions and debates, giving formal and informal presentations, conducting research, writing source-based essays, and listening to lectures.

**9) AUTONOMOUS LEARNERS**

Our teaching methodology encourages students to become autonomous learners and to think independently. "Learning how to learn" is one of the most important skills you will need when pursuing your degree at a U.S. university.

# Short-term Study Abroad in the USA

Summer, Semester, and Academic  
Year Programs

Experience life as a U.S. university student.

Our short-term programs are immersive in nature. Students live on campus in student housing, they have their meals in the dining halls with other American students and they take classes and study daily with the other students on campus. Participants experience the authentic lifestyle of a typical American student and become familiar with the unique aspects of the U.S. classroom and approach to teaching.

## Program Duration

Programs vary in duration depending on location and can last from 4 weeks to 18 months. In general, programs fall under the following categories.

**Fall Semester Programs**  
(August – December)

**Spring Semester Programs**  
(January – May)

**Summer Programs**  
(June – July)

## Program Options

Choose the right program and location for you based on your desired length of stay and English proficiency level.

### ACADEMIC ENGLISH PROGRAMS

As a student on this program, you will have the opportunity to immerse yourself in American student life, the English language, and U.S. culture. The BridgePathways intensive English program will help you to improve your English skills quickly using our customized curriculum and interactive classroom activities.

Proficiency level: *beginner to advanced*

### U.S. LANGUAGE & CULTURE PROGRAM

In addition to your English classes, you will also participate in the Bridge U.S. Culture Lab™. This unique series of hands-on tasks are to be completed outside of the classroom in real-life situations. The assignments are designed to allow you to experience U.S. culture first hand, and to reflect upon how those experiences may differ from or challenge some of your own cultural traditions or perspectives. Discussion groups are held once per week, and both international and domestic students are invited to participate.

Proficiency level: *beginner to advanced*

### ENGLISH "PLUS" PROGRAMS

English Plus is a great option for students who primarily would like to work on their English skills, but who also would like to the opportunity to attend a university course. Students complete an intensive English Program and take a university course as well. The class can be taken for credit, or not for credit, depending on the host university and also on the student's English proficiency level.

Proficiency level: *intermediate to advanced*

### CERTIFICATE PROGRAMS – SEMESTER/YEAR ABROAD

If you already have a good understanding of English, you may be able to enroll as a regular student at one of our host universities for a semester or an academic year. This is the ultimate, immersive experience as all of your classes will be taken with American students. Studying abroad for a semester or year in the U.S. is a great resume builder, and will give you an advantage in today's competitive job market.

These programs are taken for credit, and result in a Technical or Professional Certificate from the host university. Some areas of study that may be available are:

- Accounting
- Business Administration
- Counter Terrorism and Security
- Sales
- Supervision

Proficiency level: *advanced (can be combined with an intensive English program beforehand)*

### YOUTH HOLIDAY PROGRAMS

Some of our partner universities offer special programs for international students in the summer. These programs usually combine some English classes with an academic component and an experiential component. They also generally include cultural outings and recreational excursions, as well. These programs are a great way to experience many different aspects of U.S. culture in a short period of time.

Proficiency level: *beginner to advanced*

# Housing

All BridgePathways locations offer housing to international students.

## On-campus\*

BridgePathways university partners offer a variety of on-campus living arrangements including traditional double-occupancy dormitories, suites, and apartment-style residencies. First-year students are encouraged to live on campus with their classmates. Living on campus is a good way to get involved in university activities, to meet new people, and to make new friends.

## Off-campus

All of our university partners either offer their own off-campus housing or assist international students in securing independent off-campus housing. Living off campus is usually recommended for older, graduate-level students or for students with spouses and children. Living off-campus usually requires taking public transportation to class.

## Host Families

In some cases, BridgePathways is able to secure host family accommodations. Students attending our Denver City Center generally live with host families, as well as younger students who may come to study for the summer. Living with a host family can provide extra support, and encourages students to practice their English at all times.

# English Proficiency Requirements

International students who meet our universities' English proficiency requirements may apply for direct admission on the university web site.

Students who do not meet the English proficiency requirements may enroll in the on-campus BridgePathways Academic English Program. No TOEFL or IELTS is required.

Upon successful completion of Level 5 of the Academic English Program, students may matriculate to the university and begin their degree programs.
