Management

Law

Economics

Special (defectologic) education

Curricular practical training

On the 1st and 2nd courses students undergo their practical training in Botanics and Pharmacology in the Botanic Garden of Pyatigorsk Medical Pharmaceutical Institute which was founded in 1946 and occupies an area of 6 ha. The Botanic Garden is a base for scientific and research work for the employees as well as postgraduate students and students.

The Institute cooperates closely with the biggest manufacturing companies of pharmaceutical drugs, actively developing dietary supplements and products for medical cosmetology.

Once in 2 months the Institute issues “Pharmacy and Pharmacology” Research and Practice Journal.

Scientific conferences

Annually foreign students participate in scientific conferences dedicated to different issues (cross-cultural issues connected to the History of the medicine; moral and ethical problems of the modern medicine; the latest tendencies of the treatment of different diseases and pathologies; environmental impacts on human health).

Educational process

Educational process is based upon public awareness campaigns and promotion of national languages and cultures.

Festivals of nations “Friendship is our force” and “Days of Slavic writing and culture” are annually held at the Institute.
