# CYPRUS - PAFOS

Cyprus is the third largest island in the Mediterranean Sea and one of its most popular tourist destinations. The island lies at the crossroads of three continents, where East meets West.

Because of its strategic position the long history of the island has been marked by several invaders who have formed all together the political, economical, and cultural identity of Cyprus.

## Pafos.. a Vibrant City

*European Capital  
of Europe 2017*

“

Cyprus is a crossroad  
of three continents

Pafos is a city which combines a rich cultural presence from ancient times up to the present and the image of a modern european city, while it is also a very popular international tourist destination

Cyprus

Many of the islands archaeological sites are protected by UNESCO as part of the World Heritage Site.

In 2008 the Republic of Cyprus became a member state of the European Union and joined the Eurozone.

# ERASMUS +

The ERASMUS is the most important programme for mobility and cooperation in higher education in Europe. If you are a student your participation in this programme, gives you the opportunity to study or undertake

practical training abroad. The participation in the Erasmus programme will be an unforgettable and unique experience, which can play a key role in professional and personal life.

## ***Students' Mobility***

### ***European and International Mobility through ERASMUS +***

This programme is open to all higher education students. Erasmus programme offers a great chance to students of higher education to spend a study period at another University across Europe. More specifically Neapolis University Pafos has made a number of inter institutional agreements with the departments of other Universities. Students have the chance to receive a grant in order to accomplish their mobility.

This grant will help them to offset their costs while studying in the other country. Those costs include their traveling, language lessons (OLS), and cost of living.

The maximum monthly rates for students' mobility are set per host country including travel expenses. Full academic recognition for the study period carried out is ensured before departure using an ECTS Learning Agreement.

---

# PROGRAMMES OF STUDY

Undergraduate Programmes

The programme is quality assured by Middlesex University and you will receive a Middlesex award on successful completion.

# (BSc) Business Administration

Duration: 4 Years ECTS: 240

The BSc in Business Administration at Neapolis University will enable you to develop a critical awareness of the main functional areas of Business Administration and the management process within a variety of organisations. It will develop innovative and intellectual problem-solving and communication skills and aid understanding of the business world.

With this degree you can be confident of being work-ready and armed with the skills required for professional and managerial roles in modern, global business environments. Core studies include accounting, economics, finance, management, marketing and law. A flexible course structure allows you to create a study programme that suits you and your career interests. Combine business administration studies with the business informatics or management degrees.

The programme is quality assured by Middlesex University and you will receive a Middlesex award on successful completion.

The ACCA logo, consisting of the letters 'ACCA' in white on a red square background.

ACCA

# (BSc) Accounting, Banking & Finance

Duration: 4 Years ECTS: 240

The Bachelor Programme in Accounting Banking and Finance has a strong focus on practical applications without sacrificing academic rigour. It provides a solid foundation in all of the traditional financial disciplines, giving participants the analytical tools for a successful career in professional and academic posts related to finance, capital markets, investment management, corporate finance, and trading or risk management.

The curriculum is highly integrated and accelerated, allowing for the study and mastery of a broad range of skills.

(BSc)

# Digital Business

Duration: 4 Years ECTS: 240

The programme aims to provide a gateway for students who have a “globally entrepreneurial mindset” for international careers in 21st century digitized businesses.

This unique programme will be one of the few in the world in which students will focus on learning how to manage digital systems and how to use these systems to take data-based decisions, to guide complex and diverse teams in digital projects and finally how to recruit new talent.

(BSc)

# International Relations & Security

Duration: 4 Years ECTS: 240

The BSc in International Relations and Security offers students the opportunity to acquire extensive and in-depth knowledge about a wide range of issues related with the development of international affairs and its security implications.

Theory and practice of international relations and diplomacy, international organization and international law, security and strategic studies, as well as politics and economics, constitute the hard core of the Programme’s content. The Programme aims at providing students a rigorous understanding of international relations and politics, of conflict and security issues, globally and regionally across the world.

(LLB)

# English Law

Duration: 4 Years ECTS: 240

Our new LLB English Law is taught entirely in the English language and follows a regular UK LLB curriculum. Like all UK LLB degrees, the programme includes all seven subjects of the foundations of legal knowledge, namely, Contract Law, Tort Law, Criminal Law, Equity and Trusts, Land Law, European Union Law, and Public Law. The programme focuses on developing your independence, resourcefulness, and legal and research skills.

It will give you the opportunity not only to study UK law subjects but, also, to study the international context of the law.

You will learn transferable skills which can be applied in any country and in any career route you decide to follow.

The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education.

Martin Luther King, Jr.

In partnership with  
**Middlesex  
University  
London**

The programme is quality assured by Middlesex University and you will receive a Middlesex award on successful completion.

# (BSc) Applied Computer Science

Duration: 4 Years ECTS: 240

A modern, innovative and pioneering curriculum. Designed to provide the required knowledge in a range of different areas of IT, such as Algorithm Design, Software Development, Emerging Disruptive Technologies and Computational Intelligence. Bearing in mind the ever-increasing market needs, the curriculum also provides its students with basic knowledge in the areas of Management, Finance, Economics and Business where Information Technology finds direct applications.

The content of this programme aims to prepare its graduates for the increasingly complex requirements of the private and public sector, local government, organizations and businesses.

# (BSc) Civil Engineering

Duration: 4 Years ECTS: 240

The Programme is designed to produce graduates able to build their future on solid foundations. It offers each student knowledge and skills enabling them, upon completion of their studies, to enter the profession or to begin graduate study.

Students will learn to design while accounting for economic, environmental, social, political, ethical, health and safety, and sustainability constraints whilst becoming acquainted with several aspects of professional practice.

# (BArch) (DipArch) Architecture

Duration: 5 Years ECTS: 300

The programme enables students to freely shape a subjective system of skills and values respecting their personal imaginations, ethos, consistency, and aesthetic development. It activates participation in a personally reflective process that transforms thinking while incorporating a critical approach to their personal creative evolution.

The programme's didactic method explores architectural design through a flexible system, adaptable to the capabilities and interests of each individual student. This experimental process provides students with both a unique understanding of architecture and the necessary means of personal expression.

# (BSc) Real Estate Evaluation & Development

Duration: 4 Years ECTS: 240

The first and unique undergraduate Programme in the field of Real Estate in both Cyprus and Greece. This four-year Programme prepares the students for a successful career not only in the field of property valuation but also in many other professions that are related to Real Estate, such as land development, real estate investments, consulting services pertaining to real estate development and investment, real estate financing, real estate agency, etc.

Graduates of the Programme will be able also to pursue job vacancies in related government agencies such as the Department of Lands and Surveys.

# The Alumni Office

# ALUMNI

## The Alumni Office's objectives are, among others to:

- Strengthen the graduate network by the use of an interactive electronic platform that focuses on the needs of NUP graduates.  
(Register at: <https://www.nup.ac.cy/alumni/>)
- Offer information about job vacancies.
- Connect NUP graduates with the Labour market.
- Create opportunities for networking with professionals, enterprises, academic institutions and other organisations.
- Organise seminars, events and fairs on career perspectives.
- Issue the alumni member card for all NUP graduates.
- Offer various benefits and discounts.
- Support NUP graduates at their participation in Internship Programs and European Youth Training Programs, in collaboration with the University's Liaison Office.
- Monitor NUP Graduates' academic and career course.

# The Liaison Office

Operating under the European Project "Liaison Offices with the Labour Market" and funded by the European Social Fund and national funds, NUP's Liaison Office's main role is to **establish a link between the Academic community and the Business world** as well as the integration of **student placements** programs into the curricular of the faculties of the University.

**Specifically, the Liaison Office:**

- **Informs the students of Neapolis University Pafos of available placements vacancies in companies and enterprises in Cyprus.**
- **Works as a liaison between companies and enterprises in Cyprus, students and the Academics in order to gain work experience through the placements.**
- **Contributes to a further improvement of the association of the University community with the labour market and its real needs.**
- **Promotes the communication between the Academics and the enterprises as well as the collaboration in European programmes.**
- **Organises and notifies workshops and seminars of educational and professional interest as well as Career Days in collaboration with the Career Office of the University.**

**Benefits:**

- **Improvement of the students' interpersonal skills participating in the placement programme by acquiring additional knowledge and communication capabilities.**
- **Increasing the opportunities for students in obtaining fixed term employment with market leaders during their studies as well as after their graduation.**
- **Employment and on the job preparation of the next generation leaders who have up-to-date knowledge and innovative ideas.**
- **Closer cooperation and collaboration between the Universities in Cyprus and the Labour industries.**
- **Possible reduction of unemployment among young graduates.**
- **Development of business and market innovation through modern ideas that will be transferred from the Universities to businesses through the students.**

# Future Perspectives

## NEAPOLIS SMART ECO CITY PROJECT.

The Neapolis Project is an exciting mixed-use mega-project of 777,000sqm of building coefficient on a freehold land of 1,135,000sqm adjacent to the city centre and in the bustling tourist promenade of Paphos, Cyprus.

The development includes a University campus with accommodation for 10,000 students, in phases, as an extension of present NUP operations. There is also planning for a Medical University Programme. Further, it will also include residential units and dormitories together with a Health Park, Wellness centre and a Theme Park with commercial, leisure & entertainment, office park and other uses.

It is the largest integrated mixed-use project in Cyprus and probably in Southern Europe.

# THE LEPTOS GROUP

A 60 YEARS SUCCESS STORY

The history of the Leptos Group makes for a remarkable success story; 60 years of success portraying a thriving era, not only for the Group itself but particularly for the towns and the regions which we have developed, areas which have since flourished and prospered.

For over 60 successful years, the Group has established an international network of private offices in top global business cities, with business associates in 75 countries from around the world.

Today, the Group is one of the largest proprietors in Cyprus with an excess of 1,700 employees, maintaining more than 30 companies (two of them being, Leptos Calypso Hotels and Resorts which operates more than 3,600 beds and Pandora Investments which is one of the largest private landowners in the Mediterranean; both are public-listed companies on the Cyprus Stock Exchange Market.)

The establishment of Neapolis University – the first private university in Paphos, the acquisition of Iasis Private Hospital and the creation of Leda Travel, Arena Sports and Vesta Holidays (which deals with property management), established the Group's position as one of the most successful organizations in Cyprus and the Greek Islands.

The Group's companies, developments, properties and services have won numerous prestigious international awards, recognising the Leptos Group as the top importer for foreign investment in the country.
